

Ask Your Candidate

2023 PROVINCIAL ELECTION PRIORITIES

1. What programs and funding will you bring forward to support immigration, worker re-skilling, and businesses' overall ability to hire the staff that they need?

QUICK FACT: Only seven young workers are available for every ten retirees and the skill levels required for employees are rapidly changing, leaving talent gaps in the workforce.

2. How will you address current housing, education, and healthcare barriers to support creating an environment where people want to live and work?

3. Will you make changes to personal income tax to put more money in the pockets of Islanders?

QUICK FACT: PEI currently taxes our lowest-income earners at the highest rate in Atlantic Canada.

4. How will you work with PEI businesses to support economic growth and overcome workforce challenges?

GCACC RECOMMENDATION: Partner with the private sector to fund a multi-sector workforce strategy with targets for economic growth, including business and community-led solutions.
